Dear Penguin Tyce,

I'm so happy that you have been enjoying the children's letters! They sure have been working hard on them!

A talent that I have is sewing. I learned to sew when I was a teenager. First, my mom taught me at home and then I took sewing classes at school. I really enjoyed it and used to make a lot of my own clothes. I even made my own uniform for Hairdressing School. When one of my sisters got married, I helped my mom make the flower girl dresses for my nieces...they were so adorable! I have made clothes for my parents, siblings and a lot for my nieces and nephews. It is a lot of fun!

The most exciting thing about sewing for me is that I get to see the creation in steps and how a piece of material can be transformed into something really cute.

I have taught a few people how to sew over the years and I will be teaching my best friend's daughter this summer because she wants to make her cousin a graduation dress. It will be exciting!

I hope you have a fantastic week, Penguin Tyce. I love helping you make your videos!

Hugs,

Ms. Draper
